EXPERIENCE

IBM | Front-End Developer Intern

- Collaborated with experienced developers to create human-centered web solutions using HTML, CSS, and JavaScript.
- Applied design thinking to enhance user experience through user research, prototyping, and iterative testing.
- Gained hands-on development experience and improved skills through code reviews and feedback sessions.

PROJECT

Landing Page: A Sales Web Application

- Developed a responsive landing page for an online mango shop to showcase various mango varieties, highlight the company's services, and educate visitors on the benefits of mangoes.
- Technologies: HTML, CSS, JavaScript.

Complete Save Nature Website Design:

- Developed a fully responsive website for a nature conservation initiative, designed to raise awareness and encourage participation in environmental protection activities. The website features sections for home, about, services, projects, donations, and recent posts.
- Technologies: HTML, CSS, JavaScript.
